

Wallpaper Roll

Wallpaper Roll

La qualità Tecnografica incontra un nuovo equilibrio di valore.

Roll è la carta da parati modulare di Tecnografica pensata per progetti d’interior design versatili e di forte impatto visivo. Basata sulla ripetizione del pattern, propone grafiche continue stampate in digitale e sviluppate in rotoli, ideali per applicazioni rapide e facilmente adattabili anche a grandi spazi.

Roll nasce dall’incontro tra ricerca estetica, qualità di stampa e un supporto selezionato per garantire una resa visiva coerente e riconoscibile, mantenendo al tempo stesso un posizionamento di mercato più competitivo.

Wallpaper Roll

Tecnografica quality meets a new balance of value.

Roll is Tecnografica’s modular wallpaper collection, designed for versatile interior design projects with strong visual impact. Based on the repetition of a seamless pattern, it features continuous digitally printed graphics developed in roll format, making it ideal for fast applications and easy adaptation to large spaces.

Roll is born from the encounter between aesthetic research, print quality and a carefully selected substrate, chosen to ensure a consistent and distinctive visual result while maintaining a more competitive market positioning.

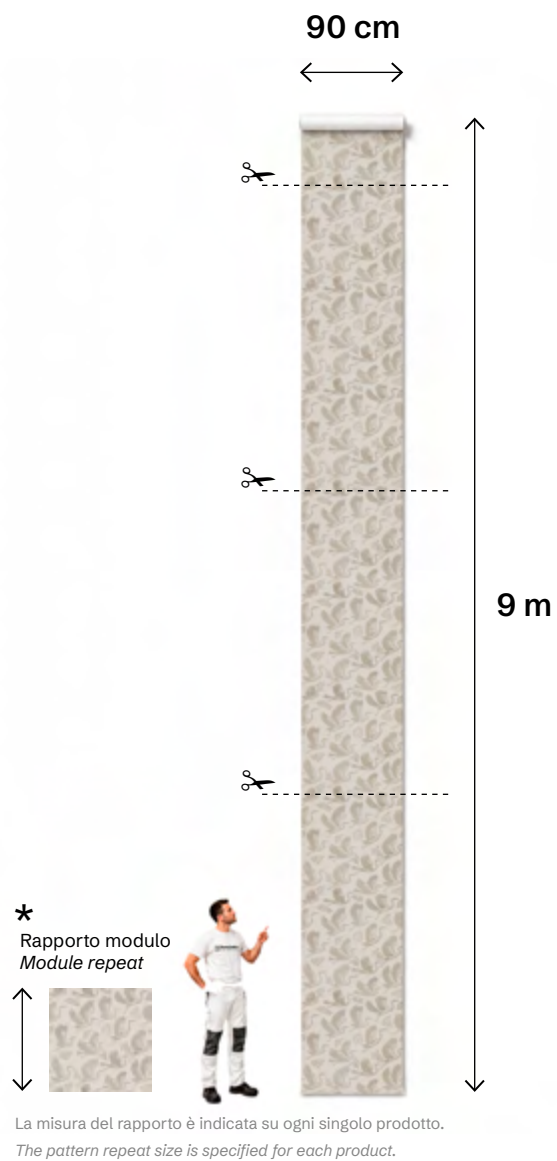

A differenza delle soluzioni più essenziali, Roll unisce modularità e creatività grazie a soggetti grafici contemporanei e distintivi, progettati per valorizzare hotel, ristoranti, negozi, uffici e ambienti contract, anche in caso di rinnovi rapidi.

La qualità Tecnografica si riflette anche nella finitura: una carta da parati vinilica gofrata, resistente ed elegante, arricchita da un raffinato effetto tessuto. La sua superficie materica dona profondità al disegno e contribuisce a creare ambienti accoglienti e ricercati, in linea con i più elevati standard dell'interior design.

Unlike more basic solutions, Roll combines modularity with creativity through contemporary, distinctive designs created to enhance hotels, restaurants, retail spaces, offices, and contract environments, even when rapid renovations are required.

Tecnografica's quality is also reflected in the finish: an embossed vinyl wallcovering that is both durable and elegant, enhanced by a refined textile effect. Its textured surface adds depth to the design and helps create welcoming, sophisticated interiors that meet the highest standards of contemporary interior design.

Srotola. Taglia. Rivesti.

Wallpaper Roll è fornita in rotoli da 90 cm × 9 metri, progettati per adattarsi con semplicità a ogni spazio.

Il rotolo viene srotolato e tagliato a misura direttamente in fase di posa. I teli vengono poi installati seguendo il rapporto del modulo grafico, garantendo continuità visiva e un perfetto raccordo del pattern. * La misura del rapporto è indicata su ogni singolo prodotto.

La quantità di rotoli necessari si calcola in base all'area da rivestire, ottimizzando l'utilizzo del materiale per una gestione efficiente e precisa del progetto.

Unroll. Cut. Cover.

Wallpaper Roll comes in 90 cm × 9 m rolls, designed to easily adapt to any space.

*The roll can be unrolled and cut to size directly during installation. Each panel is then applied following the graphic module repeat, ensuring visual continuity and a perfect pattern match. * The pattern repeat size is specified for each product.*

The number of rolls required is calculated according to the surface area to be covered, optimizing material usage for efficient and precise project management.

Wallpaper Roll

- Carta da parati modulare con pattern continui sviluppati in rotolo e stampati digitalmente.
- Materiale: Vinilico su TNT.
- Aspetto superficiale: Effetto tessuto, goffrato a rilievo.
- Tecnologia di stampa: Stampa digitale ad alta definizione
- Dimensione rotolo: 0,90 x 9,00 m.
- Superficie rivestita: 8,10 m²/rotolo.
- Classe di reazione al fuoco: B-s2,d0 secondo EN 13501-1.
- Spessore: 0.50 mm (0.02").
- Peso: 370 g/m².

- *Modular wallpaper with continuous patterns developed on rolls and digitally printed.*
- *Material: Vinyl on non-woven fabric.*
- *Surface appearance: Fabric effect with embossed textured finish.*
- *Printing technology: High-definition digital printing.*
- *Roll size: 0.90 × 9.00 m.*
- *Covered surface: 8.10 m²/roll.*
- *Fire reaction classification: B-s2,d0 according to EN 13501-1.*
- *Thickness: 0.50 mm (0.02").*
- *Weight: 370 g/m².*
